WELCOME MESSAGE

Dear Colleagues,

On behalf of the Organizing Committee, it is our great honor and pleasure to invite you to the 2019 KSH International Conference & the 60th Annual Meeting, hosted by the Korean Society of Hematology (KSH), which will be held in Seoul, Korea from March 14 to 16, 2019.

The Korean Society of Hematology successfully held the first ICKSH in conjunction with BTG last year, surpassing all expectations. Now, the Organizing Committee is positioning the KSH to lead the field of hematologic diseases through the relationships and cooperation of many countries by sharing our treatment technology with the world. The ICKSH will offer the unique opportunity to learn about the latest findings and research from renowned specialists as well as to exchange ideas and information on the most recent trends.

Our programs will include benign hematologic diseases, various types of hematologic malignancies, coagulation/thrombosis related disorders and transfusion medicine through plenary lectures, as well as scientific and education sessions. In addition, a variety of stimulating social programs has been planned so participants can enjoy the fascinating Korean culture and share our warm spirit of friendship.

We look forward to welcoming you and your active participation at ICKSH 2019 in Seoul, Korea!
